

DEDICATED BANDWIDTH & ADVANCED NETWORK OPTIONS.

For businesses that need reserved capacity and greater control

Reserved bandwidth, simply added

- > Capacity allocated exclusively to your company VLAN
- > Isolated from the standard shared bandwidth pools
- > No separate carrier line or installation project
- > Term aligned to your office agreement
- > 500 Mbps and 1 Gbps subject to site capacity

10-desk worked example

450 sq ft standard service	£337.50 pm
100 Mbps dedicated upgrade	+ £75 pm
Total	£412.50 pm

Reserved capacity is provided within Orega's centre circuits; it is not a separate physical carrier line.

Dedicated bandwidth pricing

MONTHLY UPGRADE

50 Mbps	£50
100 Mbps	£75
250 Mbps	£150
500 Mbps	£300
1 Gbps	POA – guide £500

Plus standard Managed Connectivity at £9 per sq ft per year.

Why upgrade?

- > Consistent reserved capacity
- > Ideal for critical cloud, voice or VPN use
- > Low-friction alternative to a leased line

Technical information

Full service disclosure, acceptable use requirements on services are available at:
www.orega.com/about-orega/it-service-description-sla

Choose the setup that fits your IT model.

The customer proposition stays simple; the support boundary changes according to the equipment you choose to manage yourself.

STANDARD	CUSTOMER FIREWALL	WIRES ONLY (Regulated exception)
Most popular	Greater security control Only available with Dedicated Bandwidth	Customer managed LAN Only available with Dedicated Bandwidth
> Orega firewall and security > Orega switches and office ports > Orega Wi-Fi and monitoring > Shared by default; dedicated optional > Orega manages end-to-end	> Customer firewall and policies > Customer VPNs and routing > Orega switches, ports and Wi-Fi > Dedicated bandwidth required > Orega supports to the handoff	> Customer firewall, switches, DHCP > Orega dedicated WAN handoff only > Dedicated bandwidth required > Customer Wi-Fi will require approval > Customer supports internal network
Activation included	£350 one-time setup	£500 one-time setup

Other charges

Post-move bandwidth change £100 | Public IPv4 £12 pm | Rack: 1U £50 pm, 2U £90 pm, 4U £160 pm

How dedicated works

Your VLAN is placed in its own bandwidth group and the selected capacity is reserved at the centre router/firewall, isolated from shared users.

Regulated or security-conscious business?

Our Regulated Connectivity White Paper explains how Orega can support client-controlled firewalls, network segregation, audit requirements and exceptional Wires Only configurations while protecting the shared building environment.

Ask your Orega team for a copy or scan the QR code.

More control when you need it, without the delay and complexity of installing a separate Internet circuit.
